Ewan the dream sheep deluxe instructions

1 Locate the control capsule within the Velcro Tummy enclosure of Ewan. 2 insertion batteries You will need: a cross screwdriver 3 x AAA batteries (LR03 1.2-1.5V max) First, remove the control cover from the Velcro pocket in the ewan belly. Insert 3 AAA batteries (NOT INCLUDED) into the battery compartment located on the back of the control pod. Unscrew the lid screw with a transverse screwdriver, insert the batteries by observing the correct polarity (+ / -) as illustrated or indicated inside the battery compartment, then replace the lid and screw to fix in position. Don't tighten the screw. Reinsert the control pod safely in the ewan belly pocket, ensuring that the Velcro is sealed. 3 regular volume and light Remove the control capsule from the Velcro pocket in the ewan belly. QUIET/LOUD Locate the Volume switch on the control pod. Turn on ON/OFF light via the Light switch. Reinsert the control pod safely in the ewan belly pocket, ensuring that the Velcro is sealed. NOTE: If ewan is in 'try me' mode, it will only play songs/activation for 2 minutes. Switch it to the 'normal' mode to make it play for 20 minutes. 4 turn ON/OFF & select sounds To activate the classic ewan dream sheep, squeeze one of the four buttons located at the top of each of his legs. Each leg sounds a different sound for 20 minutes. The light will activate with the sound if the light switch is activated in the ON position. To disable the classic ewan dream sheep, tighten and hold any of the four buttons located at the top of each of its legs and hold for 5 seconds. NOTE: If ewan is in 'try me' mode, it will only play songs/activation for 2 minutes. Please see above (point 3) how to change it in 'normal' mode, making it play for 20 minutes. 5 where to put ewan You can stay ewan safelyyour cot, stroller or car seat using its Velcro tail. Do not place directly on the child's head. Alternatively place ewan next to the baby cot or basket moses. 1 You'll need it. Ascrewdriver 3 x aa batteries (lr06 1.2-1.5V max) first, remove the control capsule from the velcro pocket in the ewan belly. insert 3 aa 1.5v batteries (not included) in the battery compartment located on the back of the control pod. unscrew the screw of the cover with a transverse screwdriver, insert the batteries by observing the correct polarity (+ / -) as illustrated or indicated inside the battery compartment, then replace the cover and screw to fix in position. Don't tighten the screw. Reinsert the control pod securely in the ewan belly pocket, ensuring seal the velcro. top tip: we highly recommend using rechargeable batteries with ewan deluxe. Besides being cheaper, they are more eco-friendly. 2Secure the pod take your pod and open ewan's belly, locate the two Velcro straps. fix the straps around the pod and insert the pod into the ewan belly. Fix the ewan belly. 3turn ON/OFF ewan deluxe has single button activation. press this to activate ewan. the big button can be pressed through the ewan belly, making it easy for your child to self-lenition. This same button is pushed to turn off the sounds at any time without the need to remove the pod from the ewan belly. Note: if your pod reactivates your cry sensor may be active. please see point 4 to help turn off the cry sensor. First, you will be pleased to know that one of the ewan sounds can be selected to play both in normal and smartcry mode. press and hold the main button on the pod for 3 seconds, you should hear 1 single sound signal - this means that the sensor is on and ewan is listening. the smartcry sensor will listen to the child for 4 hours. if your child stirs then ewan will activate your chosen sound. once your child has established, will listen again4 more hours and so on. If the child does not shake within 4 hours, the SmartCRY sensor will turn off. To turn off the smartCRY sensor, press and hold the button again3 seconds, this time you should hear 3 simultaneous bip - this means that the sensor is off and ewan is not listening. 5adjusting volume & light Press and hold the main button on the pod to activate. Turn on the ON/OFF light by pressing the left button. Do the volume QUIET/LOUD by pressing the right button. 6Change sounds While you activate/sound is playing double tap the main button to go cycling through: harp melody, shush, precipitation, breast sounds and vacuum. 7where to put ewan You can safely suspend ewan from your cot, stroller or car seat using its Velcro tail. Do not place directly on the child's head. Alternatively place ewan next to the baby cot or basket moses. So my friend lent me this to try with my baby to try to teach him to settle down. But he didn't give it to me with instructions or ideas how to use it. Someone had bought for her 1 year as she is a nightmare dormant without realizing that she is now a little too old for this so she is holding it for the next child, but she said that she would allow me to try it. So how did you use it? You think mine is too old for this now, it's 12 weeks on Sunday? I just put it for his nap, a little battle (another problem) so I'm not sure if you helped or not. You want some advice on how you all used it / found so you can see if it will help xx xx how to use ewan the dream sheep deluxe. ewan the dream sheep deluxe settings. how to use ewan the sheep deluxe
